

President's Report October 2020

-Front gate. We continue to receive several complaints about unauthorized entries. Sandcastle suspects a recurring problem is the guard puts in an incorrect address and does not verify the street address. This is a known concern as this is what has happened before. Sandcastle says once it gets confirmation, it will advise.

-On Nextdoor, one of our members has made overtures to organize an armed militia in Imperial. Does the board support a rule prohibiting such conduct?

-New School. There are no further updates.

-Veterans Road. WE expect the board of supervisors to select a design engineer for the road extension. The Commissioner plans to advise the design engineer of our concerns. We met with the retained acoustics engineer and they are starting their work. They recommend we look into pursuing an eminent domain claim.
